DETAILED ACTION

This office action follows a request for continued examination (RCE) under 37 § C.F.R. 1.114, filed on June 19, 2006. Claims 1-15, 18-33, 36-43, and 46-48 (new claims) are pending.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-15, 18-33, 36-43, and 46-48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 20, 38, and 46-48 have been rewritten to include a proviso statement that the chemically treated solid oxide must be devoid of titanium. There is nothing on page 25 of the specification that makes such a claim. Claims 46-48 also provide a listing of metallocenes that are excluded from claimed process. The structures revealed on pages 11-13 of the specification clearly show that all compounds listed in claims 46-48, except nonylphenylsilylbis(1-indenyl)hafnium dichloride, are preferred embodiments of the invention.

Corresponding dependent claims are subsumed under the rejection.

[†] *Ex Parte Grasselli*, 231 USPQ 393 (Bd. App. 1983), *aff'd mem.*, 738 F.2d 453 (Fed. Cir. 1984). Any claim containing a negative limitation which does not have basis in the original disclosure are rejected under 35 U.S.C. 112, first paragraph for failing to comply with the written description requirement. See MPEP § 2173.05(i).
